

## UCS1711- Mobile Application Development

### Exercise 1: Application using GUI components, Font and Colour Question:

Generate a registration form for a hospital to register new patient details as below:

1. **Assign a title for the registration form**(TextView- textSize, textStyle , typeface)
2. **Name. Specify some font and colour.** (use TextView, EditText-standard)
3. **Address** (use TextView, EditText-standard)
4. **Age** (TextView, EditText)
5. **Date of Birth** (DatePicker)
6. **Gender** (RadioButton)
7. **Marital Status** (Spinner)
8. **Contact Number** (EditText- inputType, phoneNumber)
9. **Registration time** (TimePicker)
10. **Addiction** (Smoking, Alcohol) (CheckBox)
11. **Submit** (Button)
12. **Reset** (Button)

```
        android:layout_height="match_parent">

        <TextView
            android:id="@+id/textView2"
            android:layout_width="wrap_content"
            android:layout_height="wrap_content"
            android:layout_marginLeft="10dp"
            android:layout_marginTop="100px"
            android:text="Name"
            android:textColor="@android:color/black"
            android:textSize="18dp"
            android:typeface="monospace" />

        <EditText
            android:id="@+id/name"
            android:layout_width="wrap_content"
            android:layout_height="wrap_content"
            android:layout_marginLeft="20dp"
